Genius Solutions, Inc. **THOMAS**

Total Health Office Management Automation System

ONC Certified HIT

**2015 EDITION
HEALTH IT MODULE**

ehrTHOMAS

ehrTHOMAS Version 3.0 has earned the 2015 Edition Certification for Promoting Interoperability (which is the most current government edition and certificate).

ehrTHOMAS, the ambulatory electronic health record (EHR) from Michigan's own Genius Solutions, Inc., has received 2015 Edition certification from the Office of the National Coordinator (ONC) for Health Information Technology.

ehrTHOMAS Version 3.0 was certified via SLI Compliance®, an Authorized Certification Body from the Office of the National Coordinator for Health IT (ONC-ACBs). SLI Compliance is a division of Gaming Laboratories International, LLC which has been authorized to perform Conformance Testing and Certification of Health IT by the US Department of Health and Human Services' Office of the National Coordinator as an Authorized Test Lab (ONC-ATL) and an Authorized Certification Body (ONC-ACB).

ehrTHOMAS Certified Complete EHR

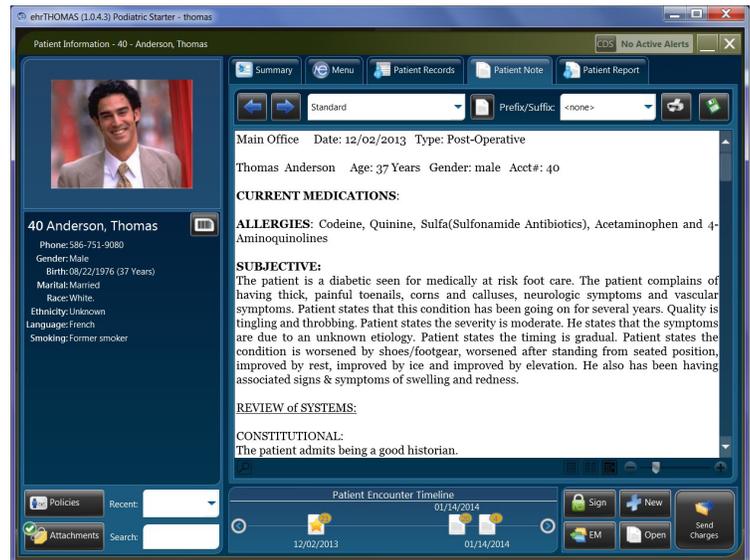

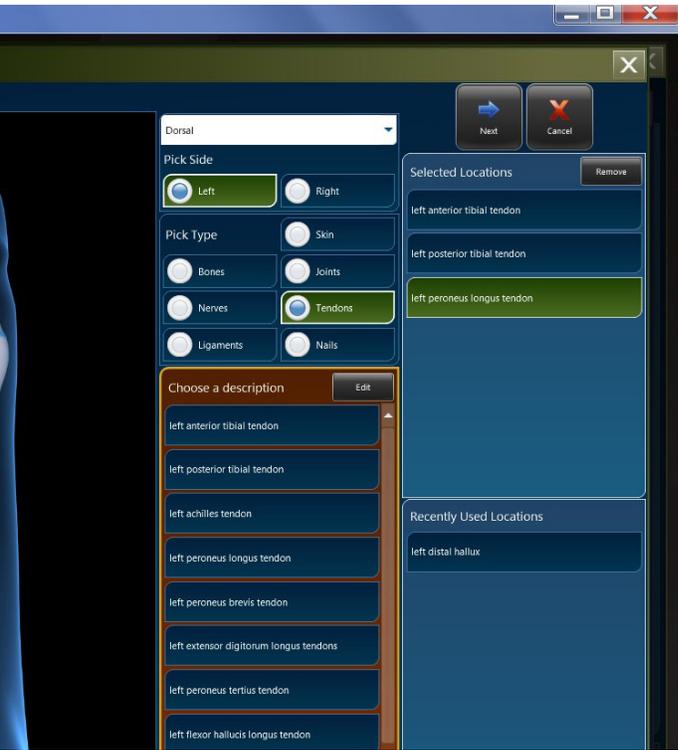

Be a Genius. We've been getting doctors paid for thirty years!

Fully loaded with an intuitive interface, helpful features, reports, training, and support. Avoid missed billing elements, document for audit issues, and meet ever-changing government standards. The results? Higher reimbursements and less stress for your practice.

Comprehensive doesn't have to mean complicated! Let our software help you up your level of patient care and attest for meaningful use and other programs. Integrate and automate with e-eligibility checks, automated statements, and appointment reminder calls.

- Use a touch screen to document routine patient encounters quickly and easily
- Go 'paperless'. Add e-versions of pictures, x-rays and other documents to your patient files
- Be flexible and in-the-know with built-in clinical decision support (CDS) alerts
- Specify patient instructions that reflect your personal style and specific content
- Customize patient treatment plans
- Give patients secure and instant access to their health records with the online patient portal integration
- Protect your encrypted data with secure permission levels
- Track user logins and input for HIPAA compliance and audits
- Chart vital sign trends over time
- ehrTHOMAS 2015 Edition certified EHR

Patient Information

Vital patient information is always at hand with our Patient Summary Screen. The main patient page design gives you a quick snapshot of a patient's information. View a patient's "timeline" to see previous visit information, PFSH, diagnostic history, etc.

Exclusive DRxContent™ By Podiatrists for Podiatrists

ehrTHOMAS with DRxContent™ is the most comprehensive EHR in the Podiatric industry. Utilizing the team of doctors and professional content developers who created the Advanced Product Content module for the former Medinotes EHR software, DRxContent™ is simply the most advanced library ever created for Podiatrists. It is so comprehensive, it allows you to create Podiatric specific documentation down to T-modifier levels that meet all industry requirements. This not only saves you time and productivity, but it can increase your practice profitability because it helps you capture all billable services and supplies.

ehrTHOMAS

Certified Complete EHR

We support You!

Our design, programming, technical support, and training services are fully housed and provided in the United States. This allows us to give you unparalleled one-on-one customer service, so you can enjoy responsive support at it's finest. Healthcare professionals switch to us specifically for this service experience, where we when we say "We care!", we mean it.

DR. CONTENT™
PODIATRY

Genius designed with you in mind.
We've made it easy!

Our touch screen user interface provides an intuitive program flow and easy-to-read screens. It also makes it the perfect EHR fit for your tablet. Your practice – Your way.

ehrTHOMAS + eTHOMAS
Certified Complete EHR + 30 Years Experience

Practice Management

www.geniussolutions.com

Reports

Monitor & develop your business by using eTHOMAS Reports

- Use built-in reports or create custom reports for patient, financial, and statistical analysis (most are exportable into Microsoft® Excel or Word)
- Create mail merge letters, labels, and envelopes
- Track your inventory items with special inventory and reporting features

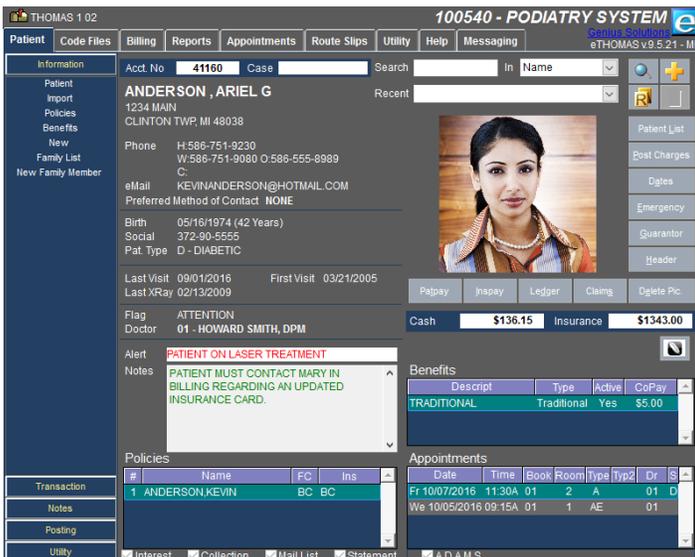

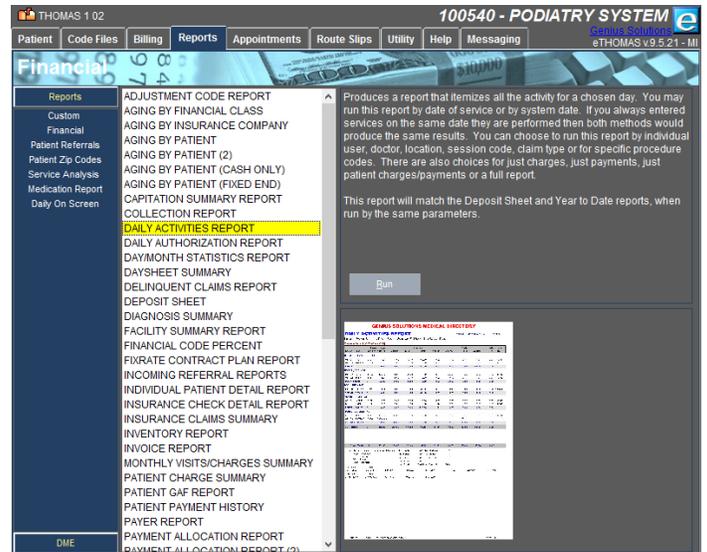

eTHOMAS

EHR-PM Integration

Complete office management

eTHOMAS is our premiere healthcare management and billing software solution. It's not an add-on or an afterthought, it is our lifeblood, just as billing is the lifeblood of your business. Don't settle for an EHR that has a new, untested, billing component. Take advantage of over 30 years of expertise in the practice management industry. With our eTHOMAS Complete Practice Management Software Solution you'll get a complete, integrated program. Direct information transfer between EHR and practice management gives billing ease and HIPAA security.

Up your accuracy & efficiency with automatic data transfers between EHR and PM. One and done!

Patient Registration & Routing

Patient entry, patient history, and ongoing documentation couldn't be easier

- Track insurance and benefits for co-pays, deductibles, and patient transfers
- Maintain complete patient histories and financial information
- Generate trackable patient statements, claims, and encounter sheets
- Accommodate capitation, pre-authorization, HMO, and self-pay plans
- Attach multi-media to patient files (including patient pictures & insurance cards)
- Comprehensive security & activity tracking for HIPAA compliance & confidentiality

Appointment Scheduling

Enjoy the ultimate appointment scheduling experience with full customization

- Schedule multiple appointments at one time
- Find next open appointment
- Schedule, reschedule, or cancel appointments easily with our point-and-click calendar
- Integrated appointment reminders and recalls are available
- Customize the scheduler to your office needs and let it help you control your patient flow

Processing Patient Charges

Fast, Efficient, and Adjustable eTHOMAS helps you fly through patient charges and payments

- Built-in help available on each screen
- Generate electronic claims, invoices, statements, EOBs, and inquiries
- Smart software "learns" your payments, co-pays, and adjustments, reducing time and increasing posting accuracy
- Validation messages help input data accuracy
- Automated insurance payment posting from 835 insurance remittance advice

eTHOMAS

Total Health Office Management Automation System

ADAMS

Automated Statments

www.geniussolutions.com

e-Eligibility

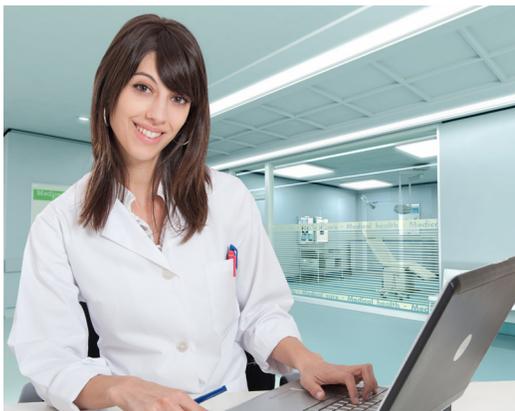

Automated Appointment reMinder System

ADAMS works directly with your appointment book in eTHOMAS, making patient reminder calls for you. Keeping in touch with your patients has never been easier or more cost effective. With ADAMS you can text, e-mail, call, or do any combination of the three to make reminder contacts with your patients.

Automated Statement Printing

Prepare and send statements as often as you like, customize your messages, select and deselect patients on the fly. Have eTHOMAS prepare your files, but instead of printing them out in your office, send us the file (securely over the internet) and carry on with the rest of your day. Now you have more time to follow-up with patients and insurance payments.

e-Eligibility

Verify eligibility at a touch and get results in a matter of seconds. Our eligibility feature is tied directly into your eTHOMAS system and will let you download any specifics the payors share. Receive a variety of vital patient information regarding benefits, copays & deductibles, remaining deductible, co-insurance, etc.

Training
