

Give Peace of Mind

Patients are often baffled by what their insurance really covers and what they owe. They want to pay now. They don't want to worry about having a forgotten debt dumped on them months later.

Deny Denials & Get Paid

Claims flow and your revenue stream becomes a raging river, because of decreased eligibility denials.

Paying Yourself... Priceless

Pays for itself! For the cost of what you save (or get) from just a verification or two, you can cover a whole month's worth of eligibility bliss* and enjoy twenty-four-seven eligibility coverage with the push of a button.

** There is a small, one-time set-up fee for the office, as a whole (not per provider), and there is a monthly fee for use, per provider. Please contact us for complete details.*

Now that's Genius!

Genius Solutions, Inc.
7177 Miller Dr.
Warren, MI 48092

It's Easy.
Just call.
We'll show you how!

If your patients
aren't covered,
neither are you!

e-Eligibility

Eligibility in an Instant!

Need to know? Yes, you do!

Best business practices say, "Verify, verify, verify FIRST!" Now you can verify with the push of a finger and get results in seconds. No muss, no fuss, it's tied into your eTHOMAS system and will let you download any specifics the payers share. Most often you will get benefits, copays, & deductibles. Depending on the carrier you may also get remaining deductible, co-insurance, etc.

- KNOW what someone's insurance benefits and co-pay really are
- Charge them properly at the time of visit
- Save yourself multiple phone calls and statements
- Save your patients frustration by letting them know and pay up front

Never guess about a patient's insurance information again-- Know it now!

You can increase patient billing accuracy, while increasing up-front patient payments.

Be in the KNOW

- Easily update patient benefit information before and at every visit
- Blazing fast, accurate, verification puts you in charge (most insurances covered with the list growing daily)
- Collect co-pays and deductibles at the time of visit- because your staff knows exactly what is owed
- Upload up-to-date verifications directly into your patient data: no calling, noting, or typing
- Focus your staff on patient care, correspondence, and collections, rather than benefit verification

Be in Charge... Of your billing and patient charges

What used to cost you days of work is now instant!

Don't call about patient benefits. Call about your insurance payments instead!
Click. Receive. Know!

Medicare, Medicaid, and Blue Cross are in the system, along with most commercial insurances. Check out the list of participating insurances on our web sites, under "Resource Links".
