The National Academy of Chiropractic Coders (NACC) is a first of its kind coding education and certification solution for chiropractors, their assistants, billers, and office managers.

In our increasingly stringent insurance environment, you have to do things just the right way to get paid. There has been a tremendous need in the chiropractic profession for an educational program leading to a certification for chiropractic coders. We are a profession of doctors and billers with very few certified professional coders (CPC). It is time for Doctors of Chiropractic to code, bill, and receive proper reimbursements for the work they perform. This can best be accomplished by having properly trained and certified chiropractic coders working in your office. Join us today in a chiropractic coding and payment revolution.
Coding & documentation problems in the chiropractic profession continue to grow exponentially as noted in the OIG reports. Chiropractic offices continue to leak large sums of money unnecessarily, due to poor coding practices. Audits are on the rise. Chiropractors, CAs, and chiropractic billers receive no formal education or training in coding. There are currently no programs for the certification or training for chiropractic coding. Hand-me down training is the standard, and it can kill an office.

We've fought hard to be here and to show that there is a better way of life with chiropractic. However, to do what we do best, both for ourselves and our patients, we must document better.

- Coding & documentation problems in the chiropractic profession continue to grow exponentially as noted in the OIG reports.
- Chiropractic offices continue to leak large sums of money unnecessarily, due to poor coding practices.
- Audits are on the rise.
- Chiropractors, CAs, and chiropractic billers receive no formal education or training in coding.
- There are currently no programs for the certification or training for chiropractic coding.
- Hand-me down training is the standard, and it can kill an office.

There has been a tremendous need in the chiropractic profession for an educational program leading to a certification for chiropractic coders. The National Academy of Chiropractic Coders (NACC) is the answer.

Learn How To

- Properly code, bill, and document evaluation & management (E/M) codes
- Capture increased revenue from correct E/M coding
- Establish a Care Plan that meets Medicare and BCBS documentation guidelines
- Work with the Medicare system
- Link diagnosis with areas of Chiropractic Manipulation
- Orthopedic Testing can lead to better diagnosis, better treatment plans, and increased duration of treatment
- The AT modifier
- Sit pretty in a Post Payment Audit
- Maximize your reimbursements

Everyone realizes there is a problem, but no one seems to know how to fix it.

NACC Membership Benefits

- Specialized training in chiropractic coding and billing, which is only available through the NACC
- Discounts on Seminars and textbooks
- Acquire the first certification available for chiropractic coding
- Learn the fundamentals of chiropractic coding
- Learn how to maximize reimbursements by getting paid for the services your office is already providing

“Today, more than ever, you need to know the rules of playing in the insurance game. By knowing the rulebook and establishing compliancy procedures in your office, you can reestablish control of your practice’s future.”

Ted A. Arkfeld DC, MS, CPC, and Founder of the NACC
"I know many of you are tired of reading about all of the negative issues occurring in healthcare. I know that compliance has become a dirty word best associated with having a tooth pulled sans Novocain. However, I am here to tell you that there is a way to accomplish compliancy in your office. There is a way to regain your vision and mission for chiropractic. And most important to your patients, there is a way to achieve miracles in your practice once again. The answer is the National Academy of Chiropractic Coders, NACC.

"Billing and coding can be confusing, frustrating, and frightening if you have not been taught the correct way to do it. The NACC is here to help cut through the coding myths and misconceptions that exist out there today, while giving the step-by-step help that is needed for you to enjoy being a practicing chiropractor and get paid properly for it."

Ted A. Arkfeld DC, MS, CPC, and Founder of the NACC

Why you need a certified chiropractic coder:
• Certified Chiropractic Coders are highly trained and have obtained certification by passing a stringent 100 question multiple choice examination solely on chiropractic CPT and ICD-9 principles
• Certified Chiropractic Coders allow your practice to get paid for the work performed by coding to the highest level of specificity
• Certified Chiropractic Coders understand that "Correct Coding Pays"
• Certified Chiropractic Coders keep your practice up to date with the changes in Medicare and other third-party payers
• Certified Chiropractic Coders ensure that your practice is compliant and therefore audit guarded as well

After staying out of practice for a couple of years while I taught and wrote, I decided to go back into practice in 2009. I practice what I preach. I am receiving maximized reimbursements from insurance companies, and I am enjoying being a chiropractor more now, than I ever have at any previous point in my career. And I’m here to tell others that they can too. This is the best time to be a Chiropractor and I would like to help you prove it.

Presentation subjects range in detail and complexity from one to eight hours. Larger subjects can be broken down into smaller teaching topics for time or format considerations. Formats include: seminars, presentations, webinars, and short lectures. Subjects can also be varied based by audience (CAs, Billers, Doctors of Chiropractic), and by skill level (new doctors just going in to practice, etc.).

Current Subjects Include:
- Everything you Ever Wanted to Know About Compliance, but Were Afraid to Ask
- Biomechanics of Traumatic and Non-Traumatic Injury
- Stop Leaking Money and Maximize Your Reimbursements
- Chiropractors, This Can be Your Best Year Ever (How to Audit Your Own Files)
- Ergonomic Analysis
- Successful Use of Activities of Daily Living
- Medical Necessity
- Medicare
- Personal Injury / Auto Case File Preparation
- How and Why you Need Technology in Your Office
- Setting up and Utilizing WritePad™ EHR to its fullest

Ted A. Arkfeld, DC, MS, CPC
NACC Founder & Premiere Presenter

Practicing Teacher
