

The Next Generation of Practice Management

Genius Solutions, Inc.

eTHOMAS Cloud

The screenshot shows the eTHOMAS Cloud interface for a patient named Amy Bailey. The top navigation bar includes tabs for Patient, Code Files, Billing, Reports, Appointments, Route Slips, Utility, and Messaging. The left sidebar contains a menu with options like Dashboard, Information, Transaction, Notes, Posting, Utility, and Reports. The main content area displays the patient's profile, including a photo, name, address, and contact information. Below the profile, there are sections for Policies, Appointments, and a Ledger. The Ledger table shows a list of transactions with columns for Ref#, Date, Pro, DXPTR, Dr, Chr.Srv, Chr.Pat, InsPaid, PatPaid, and Claim#.

Ref#	Date	Pro	DXPTR	Dr	Chr.Srv	Chr.Pat	InsPaid	PatPaid	Claim#
15408	02/19/2024	99213	ABCD	01	190.00	0.00	0.00	0.00	1289
12807	02/06/2024	99213	ABCD	01	190.00	0.00	0.00	0.00	1106
12809	02/06/2024	3017F	ABCD	01	0.01	0.00	0.00	0.00	1106
12810	02/06/2024	3014F	ABCD	01	0.01	0.00	0.00	0.00	1106
12811	02/06/2024	1036F	ABCD	01	0.01	0.00	0.00	0.00	1106
12812	02/06/2024	3351F	ABCD	01	0.01	0.00	0.00	0.00	1106
12808	02/06/2024	4274F	ABCD	01	0.01	0.00	0.00	0.00	1106
9917	01/22/2024	99213	ABCD	01	190.00	0.00	0.00	0.00	908

The screenshot shows the eTHOMAS Cloud dashboard. It features a top navigation bar with tabs for Patient, Code Files, Billing, Reports, Appointments, Route Slips, Utility, and Messaging. The left sidebar contains a menu with options like Dashboard, Information, Transaction, Notes, Posting, Utility, and Reports. The main content area displays a dashboard with various widgets, including a 'Good Morning Patient' widget, a 'Patient Balance' widget, and a 'Patient Payments' widget. Below these widgets, there is a section for 'Appointments Today' with a calendar view.

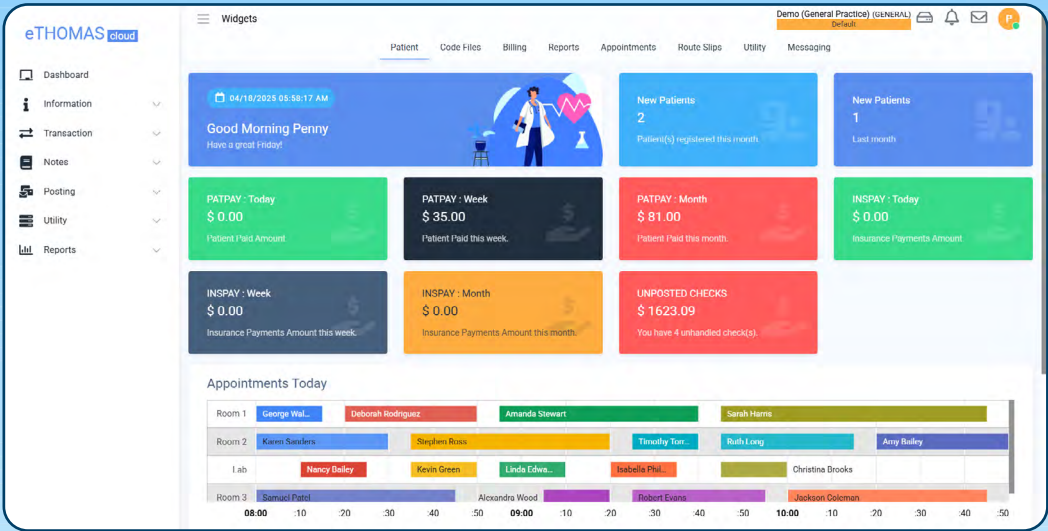

The screenshot shows the eTHOMAS Cloud Insurance Checks page. It features a top navigation bar with tabs for Patient, Code Files, Billing, Reports, Appointments, Route Slips, Utility, and Messaging. The left sidebar contains a menu with options like Dashboard, Information, Transaction, Notes, Posting, Utility, and Reports. The main content area displays a table of insurance checks with columns for Check Number, Check Date, Check Amount, Pmtd Amount, Remaining, and Actd Period. The table is filtered by 'Show 10 entries' and 'Show Completed'.

The screenshot shows the eTHOMAS Cloud Electronic Data Interchange (EDI) page. It features a top navigation bar with tabs for Patient, Code Files, Billing, Reports, Appointments, Route Slips, Utility, and Messaging. The left sidebar contains a menu with options like Dashboard, Information, Transaction, Notes, Posting, Utility, and Reports. The main content area displays a table of EDI transactions with columns for Check Date, Check Number, Check Amount, Pmtd Amount, Payment Type, and Yes/No. The table is filtered by 'Show 10 entries' and 'Show Completed'.

Your Practice, Streamlined and Online.

All the tools you expect from a complete practice management solution—now with the accessibility, convenience, and flexibility of a web app.

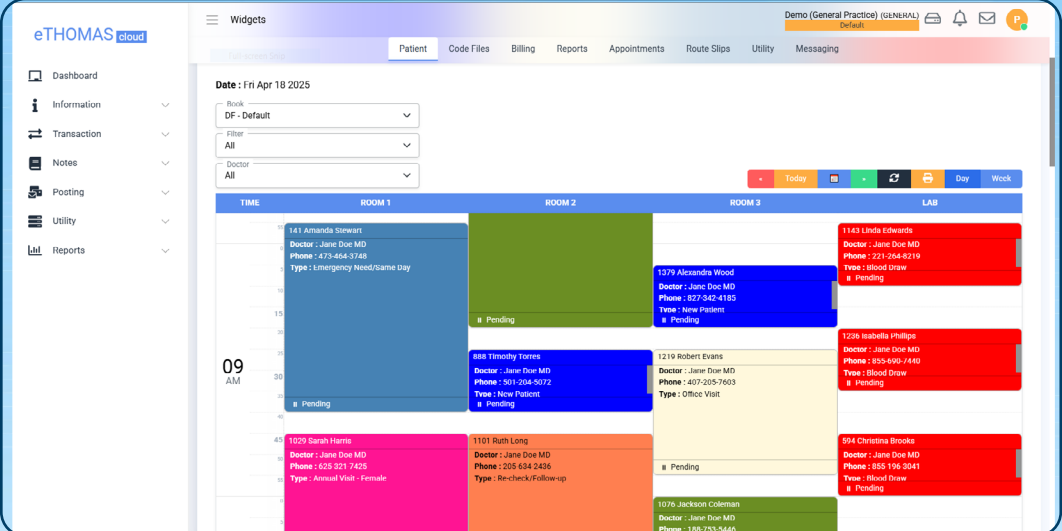

Smarter Solutions. Simpler Setup.

Appointments

Today's appointments are on the opening widget screen and are a great way for everyone to be in-the-know and on task with a glance.

Set up and customize your appointments, appointment book, time blocks, and restrictions, and then track appointments with reports like waiting, missed, canceled, rescheduled, and more. "Find Next" and set up a series of multiple appointments for a patient. You can also create appointment "profiles" for standard appointments that have the codes already attached to speed up your billing process.

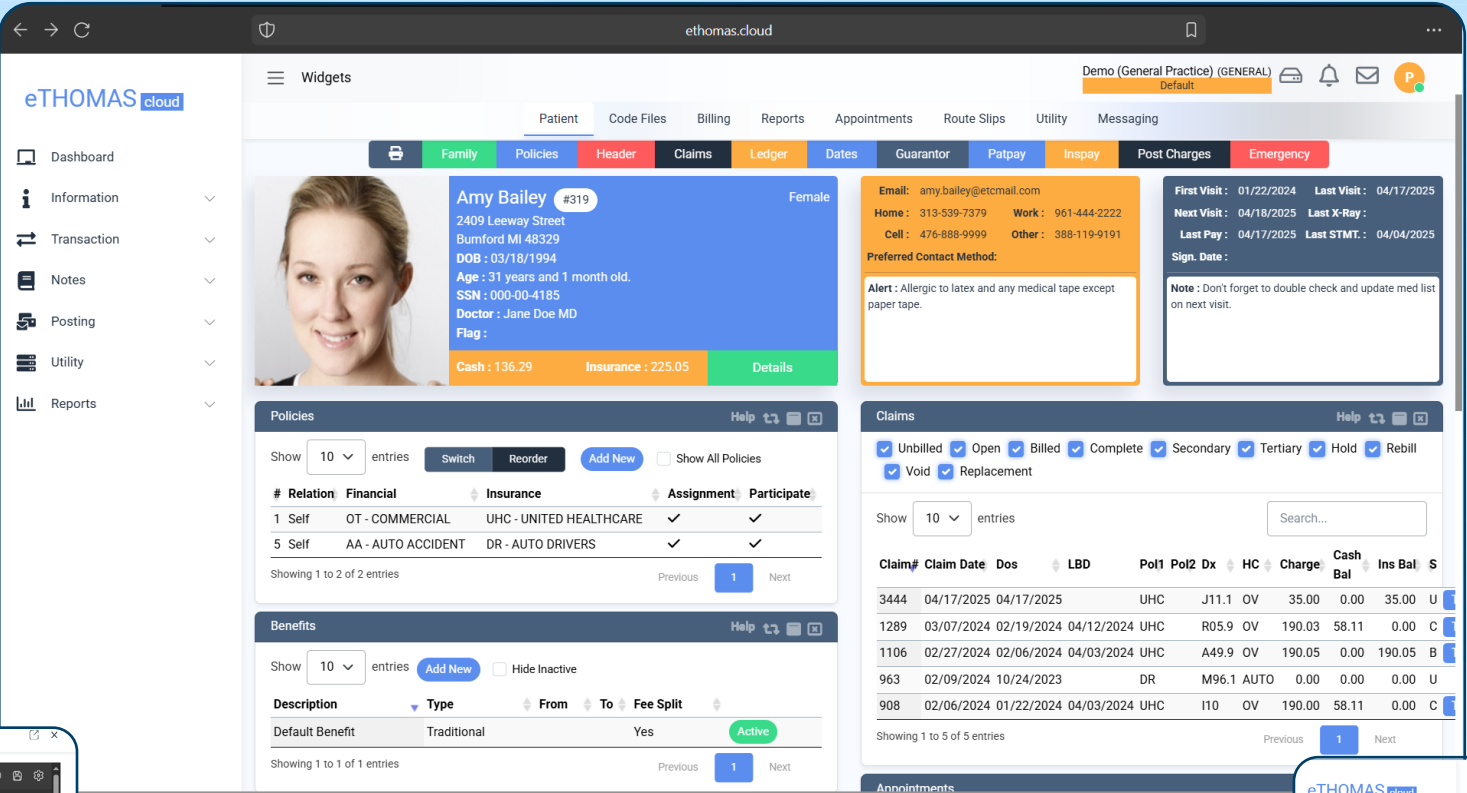

Widgets

Opening screen with "widgets" a.k.a. little boxes that give you a snapshot of your office all on one page when you login. It gets you started.

Reports?

Absolutely! Everything you need to track down payments, missing/late monies, patients, office efficiency and more. Here are some of the dozens of reports that you can use to monitor and maintain your office and patients most effectively: service history, billing validations, adjustment, aging, claim filing limit, statistics, delinquent claims, invoices, route slips, find unapplied, reconcile, and custom.

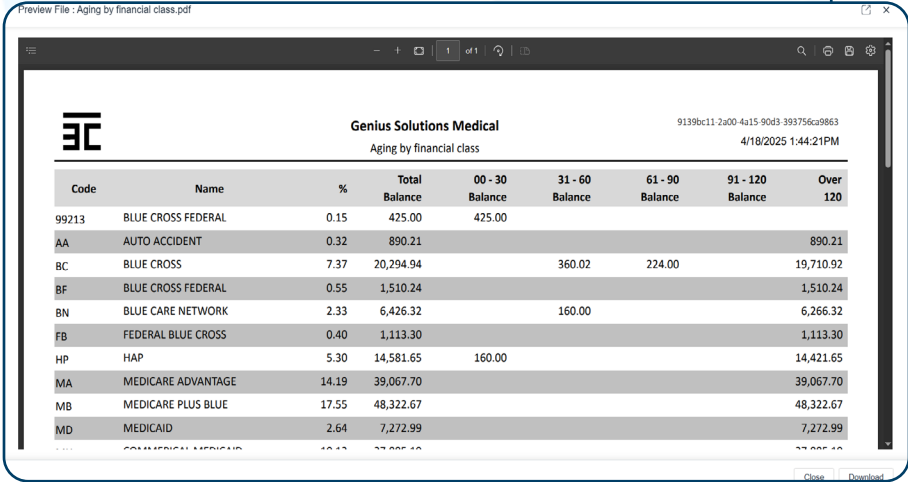

Patient Information, Routing, & Processing

You are all about your patients, so we made the main patient screen the center hub for you and your office.

Search for any patient and all of their information is right there for quick viewing, review, or update. Patient and insurance pictures, media, and notes can easily be added to each patient.

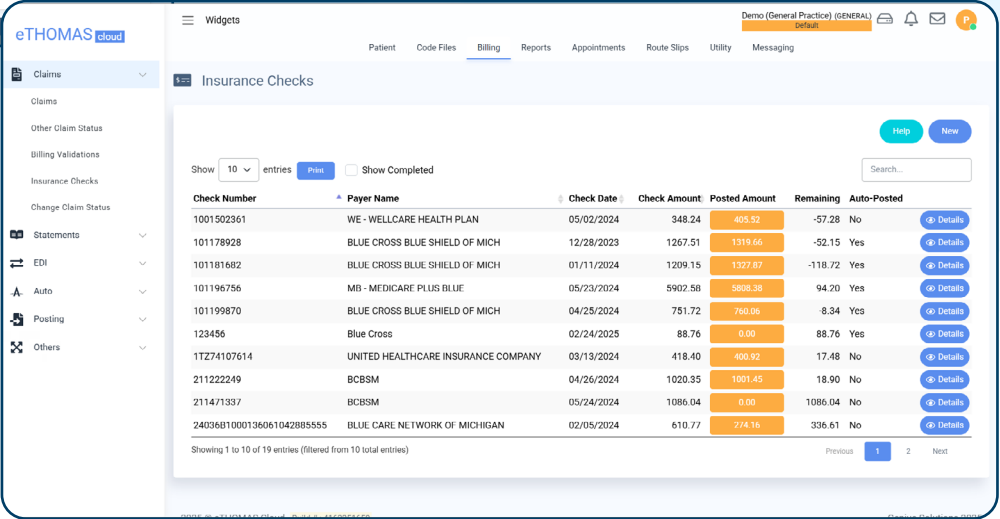

The information sections below your patient, such as policies, benefits, claims, and more are fully customizable. You can choose, add, and arrange them for easy viewing. Each person in the office can customize to their preference or work needs. All reports and features are accessible and adjustable in multiple new ways. Work your way faster and easier.

Fewer Clicks, More Action.

Sending, Tracking, & Receiving

Sending claims, receiving remittance, and autoposting have never been easier or more automated. You can also add in e-eligibility checks, automated patient payment plans, autoposting for online patient payments, and more.

"The program practically leads you through, step-by-step so you don't miss a beat."

Practice Management. Evolved.

You know and trust eTHOMAS now meet the next generation:
eTHOMAS Cloud.

Re-built from the Ground Up

Not just a "cloud port" of eTHOMAS, but a fully re-imagined platform leveraging 40 years of THOMAS expertise for a modern, online, intuitive practice management experience.

Data Security

Patient data never lives on your device. We store it on professionally secured servers with HIPAA-compliant encryption. Your practice and patients stay safe.

Automatic Updates & Backups

Performed off-hours so you never miss a beat—no IT maintenance required from you.

Automated Integrations

Clearinghouses, payments, payment posting, appointment reminders, as well as patient online scheduling and payments are available.

Seamless Transition

Migration from eTHOMAS desktop is quick and easy. Input new data easily or we can help you import it from another system.

Ease and Flexibility

Customizable Patient Dashboard with multiple, intuitive navigation pathway options, keeps most things just 1-2 clicks away. Integrated EDI makes posting and auto-posting fast and secure.

Start Small, Grow Big

Negligible startup costs and zero overhead make it perfect for new practices or billing services looking to scale up affordably.
